

Managing Your Tree Survey Data

Agenda

Recording, presenting and managing your tree survey data efficiently is critical for the success of any business wishing to offer a professional service to their client or design partners.

Seminar details:

10.00am - 12.30pm Tuesday 18th May 2010 Redditch

This event is absolutely FREE and will be held at Key Systems Head Office, Redditch.

9.30 - Registration and Coffee

10.00 – Introduction

10.15 – Surveying Trees on Site with Cartogoo

- Overview of existing options
- Using Google Earth as a backdrop
- Entering tree survey data to BS5837:2005
- Export to KeyTREE and GIS systems

11.00 - What is KeyTREE and how can this:

- Enable you to plot tree locations and canopy shapes accurately
- Assist with the calculation and plotting of the tree Root Protection Area (RPA)
- Ensure BS5837:2005 compliance is achieved
- Import survey data recorded on site manually and from Cartogoo

11.30 - Break

11.45 - Publishing, Distributing and Presenting Tree Data with Eye-TREE

- Importing tree survey data from KeyTREE and other applications into Eye-TREE
- Presenting, analysing and publishing data for viewing by others in a web browser
- Manage Inspections and Work tasks
- Attach photographs and other documents
- Exporting data to GIS systems

12.15 - Q&A

12.30 - Close

At the end of the formal session a light buffet will be provided and there will be an opportunity for you to see demonstrations and try out some of the devices and software on display..
